INTERNATIONAL BUSINESS EXCHANGE PROGRAMME

The **International Programme** enables new entrepreneurs in Europe, to be matched with experienced entrepreneurs.

Whether you are a new or highly experienced entrepreneur, the programme can offer strong added value to your business.

The entrepreneur will work at another European company, contributing to its development while the host will share their entrepreneurial experience with them.

The programme is aimed to support new and aspiring entrepreneurs to develop their skills in business management while also assisting them to establish a business network throughout Europe. The host benefits from fresh perspectives on his/her business and gets the opportunities to cooperate with foreign partners or learn about new markets.

The Programme is partially funded by the European Union with placement between one and three months.

We got on so well with the new entrepreneur, that we are now partners with her company in Madrid.

Laura Bayford,
Owner of Legal Consultancy

I now understand which business model is good for my company and what marketing strategy I should use.

Georgj Nikolaev, Owner of IT Consultancy

THE PROGRAMME AIMS TO:

- Help new entrepreneurs develop international contacts and learn from successful business people
