

Product list - annex

(1) Devices

(a) Audio / video

- Amplifiers and transmitters (audio and radio frequency)
- Radios (analogue/digital)
- Media player (using various types of media)
- LCD / CRT monitors (size of up to 24")
- TVs (screen size of up to 24" or projector types)
- Video recorders (VCR of various types)
- Headphones
- Complete loudspeakers mounted in cabinets
- Digital video and television cameras
- Transcribing machines

(b) Instruments

- Measuring instruments for measuring various physical properties (electrical voltage, electrical current, flow, humidity etc)
- Oscilloscopes
- Test equipment
- Signal generators
- Soldering tools
- Instruments used in the medical, surgical or dental field
- X-ray equipment

(c) Office equipment

- Typewriters
- Duplicating machines
- Digital copiers
- Multifunctional copiers/printers
- Printers
- Coin or bank note counters/dispensers

(d) Manufacturing equipment

- Semiconductor manufacturing machines
- Optical fibre machines

(e) Others

- Battery chargers
- Inverters/converters/transformers
- Lightning of LED light source type
- Remote control
- Radio navigation devices (GPS etc.)
- Electrical sound or visual signalling equipment (alarms, indicator panels etc.)

(2) Parts / accessories

- Passive and active electronic components (inductors, multichip IC etc.)
- Electrical and optical conductors
- Connectors and electromechanical switches
- CRT and TV camera tubes
- Lamps and parts of LED type
- Lenses for electronic projectors
- Electro magnets
- Antennas
- Small electrical motors (incl. vibrators for mobile phones)
- Electronic assemblies
- Loudspeakers, microphones
- Pickup cartridges
- Cabinets/enclosures
- For office machines
- Lightning arrestors
- Chemicals such as epoxide resins, ceramics and plastics used in semiconductor manufacturing
- Photographic films and sensitising emulsions for use in semiconductor manufacturing
- Glass and metal polishes for use in semiconductor manufacturing
- Optical prisms and mirrors
- Photographic flashlights
- Copper foil for manufacturing of Printed Circuit Board (PCB)

(3) Consumables and Media

(a) Storage

- Magnetic tapes, and cards
- Optical discs
- Semiconductor memories in form of cards or other packaging types

(b) Batteries

- Various types of batteries used for powering IT devices and parts of batteries.

(c) Printing

- Ink cartridges without an integrated printer head
